

Fly

PATÈ MIX

EGG FOOD FOR INSECTIVOROUS AND OMNIVOROUS BIRDS

INGREDIENTS*

Bakery products, cereals, derivatives of vegetable origin, fish and fish derivatives, oils and fats, sugars, milk and milk derivatives, molluscs and crustaceans, eggs and egg derivatives (3%), yeasts, minerals.

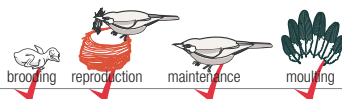

INSTRUCTIONS FOR PROPER USE

Dry egg food for insectivorous and frugivorous birds to be used throughout the year, especially during the singing and reproduction stages, alone or mixed with other products of the same line (PATÈ INSECTA), or softened with apple juice in a 1 to 3 ratio. The maximum dose for each bird is about one teaspoon/day.
