

Sbriciolino Extra

Sbriciolino Extra of the Nostrale Classic Polli line is a very fine grain size crumbled feed, which provides a proper feed intake for chicks from their very first days of life, and reduces feed waste in the feeding troughs. The presence of a coccidiostat in the feed helps to control the onset of gastrointestinal problems. With its high level of energy, fat and protein, it is particularly suitable for chicks of light and heavy poultry breeds that require Raggio di Sole's nutritional care for proper development.

Available sizes:

- 10 kg bag
- 22 kg bag

INGREDIENTS

Corn (from GM corn), feed made of hulled soybeans-based meal (from GM soy), toasted soybeans (from GM soy), rice husks, wheat middlings, calcium carbonate from ground limestone, dicalcium phosphate (from inorganic sources), soybean oil (from GM soy), sodium chloride, sodium bicarbonate.

ANALYTICAL CONSTITUENTS

Crude protein 23%, crude fibre 3.24%, crude oils and fats 5%, crude ash 5.77%, lysine 1.3%, methionine 0.42%, calcium 0.96%, sodium 0.13%, phosphorus 0.67%.

The analytical data refer to a sample taken uniformly from an unopened bag.

INSTRUCTIONS FOR PROPER USE
